PRIMARY HEALTH CARE HONORED AS A STATEWIDE CHAMPION

(Des Moines, IA) (May 3, 2021) Primary Health Care (PHC) is recognized as *Telligen's QI Connect Award* winner, awarded to organizations that addressed high priority health issues during COVID-19 and demonstrated a high level of commitment to the overall health of our community. The pandemic has not only highlighted the importance of community members working together, but also how collaboration can drive community-centered health outcome improvement.

Telligen is pleased to present this award in recognition of outstanding activation to PHC. Recipients of the inaugural *Telligen QI Connect™ Award* utilized their relationships to recruit individuals and partner organizations to join together to focus on the most challenging issues facing our communities today. In this time of COVID-19 and beyond: opioid misuse, increasing access to behavioral health services, ensuring smooth patient transitions with changes in level of care, patient safety, chronic disease prevention and self-care, and nursing home quality. The pandemic has not only highlighted the importance of community members working together, but also how collaboration can drive community-centered health outcome improvement.

We're proud to honor PHC's hard work, passion, and dedication to providing patients, families, neighbors, and staff with the highest quality of care.

###

About Telligen

Telligen QI Connect™ is the Quality Innovation Network - Quality Improvement Organization (QIN-QIO) for OK, CO, IL and IA. For more than 45 years, Telligen has been transforming lives and economies by improving health. Telligen serves commercial clients and government programs at the federal, state and local level, improving health outcomes for millions of people nationwide. We bring national expertise to you to share best practices and evidence-based interventions across the continuum of care to enhance community partnerships, improve community health outcomes, and enable you to imagine and mobilize sustainable high-quality, cutting-edge care. Telligen can help AND we connect you with others that can help. For more information, visit www.telligen.com and www.telligenqio.com.
